FURNISHING YOUR ROOM

It is helpful for you and your family to furnish and decorate your room prior to moving in (when possible). This can help change a room into a home which is welcoming and often soothing for you and your family the day of admission. We will inform you when the room will be ready. You can then begin moving in personal belongings.

In Prairie View Lodge and Rock Lake Personal Care Home rooms come supplied with a bed, a chest of drawers and a bedside table. We also supply bedding, blinds, towels and facecloths.

Furniture We Suggest for rooms (all furniture must be stable and appropriate finish to withstand being wiped with a wet cloth frequently)

- lamp (no floor lamps)
- A chair or recliner may be brought in if you are able to get in and out of the chair on your own. Chairs or recliners must have a stationary base no rocker or swivel chairs and the cushion in good repair. If purchasing new, the Occupational Therapist will give measurement suggestions if you wish. *If purchasing a new chair*, please purchase vinyl or leather that can easily be wiped and cleaned.
- When setting up your room; the bed may be placed against the wall if you can get in and out of bed on your own. If residents require a mechanical lift to get in and out of bed the bed will be placed in the centre of the room to allow staff adequate space on either side of the bed.

Optional furnishing

- TV (cable or Shaw satellite is available) (if you are purchasing a new TV we suggest a flat screen TV with a swivel wall mount, max TV size suggested is 32 inches)
- Phone
- Radio/CD player
- Shelves
- Own curtains (can be placed on windows over our blind that stay on window)
- Own bedspread if you don't want to use the facility ones we provide (possibly 2 to accommodate laundry so when one is being washed we can use the other one on)
- Small Refrigerator (***must be cleaned by resident/family***)
- Oscillating fan for the summer months (must be removed from facility if not being used)
- A clock
- Wall hangings/Pictures

Furniture Which is Not Allowed

- Foot stools, stacking stools, TV tables, folding chairs, chairs without armrest, wheat bags, any unstable furniture (must be able to lean on all furniture), bird seed (we have had trouble with bugs when the seed is kept indoors) **Visitors are welcome to use chairs from the resident lounge for visiting in resident rooms**
- The following electrical items are not allowed; microwave ovens, toasters, kettles, hot plates, irons, humidifiers, heating pads, coffee makers, floor lamps, halogen lamps and any other item which places either the resident or other residents at risk.
- No lilies due to many residents and staff with allergies
- Extension cords (due to fire regulations, power bars- breaker type, are allowed)
- Knives are not allowed. Scissors for personal use are to be kept in resident's room in a drawer

Toiletries

- Salon quality shampoo and conditioner is provided for all residents by the facility
- deodorant is recommended
- space is limited on counter top (it is wiped daily)
- no powder (we have found it increases fungal and bacterial infection as well as makes the floor slippery for residents and staff)
- no perfume, scented lotions or air fresheners: many staff and residents are sensitive and or have allergic reactions to scents
- no aerosols (e.g. Hairspray)
- Brush/comb for room as well as tub room
- No round brushes with bristles all around

Pictures and papers for reminiscing are valuable; we suggest a drawer or a sealed plastic container for the closet be designated for these materials. We encourage you to make the room as personal, comfortable and homelike as possible. Valuables such as jewellery, if not worn daily, should be left with your family.

The amount of furnishings which staff are able to safely work around will depend on the amount of your daily care staff are assisting with. When deciding where to place furniture or decorative pieces, it is a good idea to ask staff where items are least likely to be accidentally 'bumped'. The facility is not responsible for damaged or missing items, therefore, when choosing what to bring, consider that there may be potential items may be accidentally damaged or could go missing.

FURNISHING (Continued)

In the event that your care needs change, staff will discuss with you if items need to be removed and/or rearranged to ensure your safety along with the safety of our staff. When furniture has been moved in to facility there will be a safety check completed by staff, in accordance with the Regional Falls Prevention Program (see the "Falls Prevention" handout in Welcome package) and some items may need to be removed.

Due to limited space, there is no room for storage of 'off season' decorations or bulk amounts of papers etc. family/friends should provide this storage. Rooms need to be kept as clutter free as possible. This allows staff to keep the room clean and safe.

All electrical appliances must be CSA approved and in good repair. Maintenance staff will inspect electrical items in room and fasten cords to the wall to avoid lying on heat registers or being a fall hazard. Maintenance will hang and install pictures, TV's, shelves etc. Please notify staff when items are brought in to be hung.

TELEPHONES/CABLE TV /INTERNET

Each resident room has an outlet for both cable TV or SHAW Satellite and telephone. Private phone lines, cable TV or satellite, if desired, are your responsibility to have connected. Both companies will need to know the room number. Call Bell MTS (225-5687) for phone, Commstream cable TV may be installed by calling 1-866-206-3707 or 1-204-272-1347 or www.commstream.net and SHAW direct for satellite at 1-888-554-7827 or www.shawdirect.ca . The cost of telephone and cable/satellite T.V. is your responsibility. Rock Lake Personal Care Home and Prairie View Lodge are wired for wireless internet access in common areas such as the lounges. No password is required to use the wireless connection.

YOUR CLOTHING

The recommended clothing list at the end of this section outlines what we suggest you will need for clothing.

All washable personal clothing will be laundered for you at no cost. These clothes must be of the “wash-and-wear” nature. The facility does not take responsibility for damage which may occur during laundering using commercial washer and dryers. The laundry department will label all of your clothing articles (on the bottom hems when possible) and any personal linen. There is a charge of \$25.00 for 100 labels. It is helpful if the majority of your laundry can be brought to the facility a day (or more) ahead of admission for labelling, please let staff know if you bring in clothes so we can take them to the laundry department.

In future, whenever you receive new items of clothing, please request staff to have items labelled before placing in your drawers.

If your family wishes to do your personal laundry, they may do so. Clothes will still need to be labelled, just with a different colour so that staff know that those clothes go home to be washed. Please provide a laundry hamper or bag and staff will attempt to avoid putting these items in facility laundry machines. To prevent confusion we request that either the facility wash all clothing or family wash all clothing.

Your clothing needs may change in the future as your care needs change. As the need arises, nursing will contact you with required clothing needs. Specialty clothing catalogues are available and clothing sales are regularly hosted within the facility. At present, sales are held twice a year once in the Spring and once in the Fall.

SUGGESTED CLOTHING LIST

This list was prepared as a guideline for minimum requirements. Some residents will require more and some items may not be applicable. **All clothing should be washable.** With our laundry facilities, **we cannot be responsible for woollen clothing or afghans**; therefore, we prefer the residents to have synthetics. Dry-cleaning is the responsibility of the resident or family. Non-washable garments have been ruined when accidentally sent to the Laundry. If residents wish to bring in personal pillows it is the responsibility of the family to wash them.

| SUGGESTED ITEMS | QUANTITY |
|--|----------|

If residents require open back clothing we request a minimum of 4 pairs of pants and shirts rather than 6.

YOUR FOOTWEAR

Wearing well-fitting, supportive footwear can provide stability and help prevent a fall. The Occupational Therapist may be consulted to recommend appropriate footwear. Slippers should have a rubber sole. If you sleep with socks on, gripper socks are recommended. When purchasing new footwear please consult the “Proper Footwear Can Help Prevent Falls” pamphlet in your Welcome package.

The physician will determine whether it is most appropriate to meet at the clinic or the facility.
